Operating manual

- Starting time about 1 – 3 min.
- After long operating time let the burner cool down.
- Oil economically with light oil (for example sewing machine oil)
- Fill the burner with a 10 ml injection (burningtime about 30 – 40 min.)
- Operate model only under supervision.
- Model is run in. The opening or adjusting from bolt connections can affect the runing function negatively
- Don´t touch hot cylinder !!!

Lots of fun !!
